

CRM Data Management for Every Manufacturer

OneView™ CRM is a patient-centric, device neutral platform for managing all your vendor-provided cardiac implantable electronic device (CIED) data and reports—because your ability to care for patients shouldn't be limited to a single brand.

BENEFITS

Access to All ICD, Pacer, ICM and ILR Data

Enjoy quick and easy access to device specifications, settings, episode details, electrograms and all reports. Includes data from implant registration, programmer, remote and acoustic interrogation.

Streamlines Workflow & Improves Efficiency

Receive all device data in one place via one workflow, saving you time and reducing the hassles of managing device-specific websites.

Intuitive, Patient-Centric Interface

Easily care for, schedule and manage your patients with powerful and customizable query and reporting functionality.

Web-Based Access

Because OneView is web-based, you can manage patients and their data from almost anywhere.

Requires Minimal Hardware

ScottCare offers you multiple installation options including stand-alone workstation or client server environment; complete virtualization or cloud-based options are also available.

FEATURES

- **Collects all vendor-provided discrete values, PDFs and EGMs for:** Biotronik®, Boston Scientific®, St. Jude Medical, Medtronic® and Sorin Group
- **ClinicSync™ automatically recognizes, decrypts, imports and sorts programmer data** from all device manufacturers
- **Scalability** enables management of one to 100,000 or more device patients
- **Single bi-directional HL7 interface** for scheduling and reporting
- **Enables sorting, trending and reporting of data**
- **Customizable** reporting capabilities and templates
- **Real-time instant updates** to lead and device library
- Automated identification of patients impacted by **device and lead recalls**

Experience the only data management tool that provides automated transfer, capture and reporting of remote and in-clinic interrogations for ICD, pacemaker and ILR devices.
