

## Comfortable, Accurate Monitoring.

Your patients will love **novi+**™ our newest patch Holter. It's easy to apply and allows a quick return to their normal activities—even swimming! The single-electrode patch discreetly provides two or three channels of continuous recording and supports event marking with a simple double-tap. So much convenience in such a small package!

**Our newest generation of patch Holter provides up to three channels of monitoring—all on ONE charge and ONE electrode.**

The novi+ makes fast hook-ups a reality for minimal patient inconvenience, greater compliance and improved diagnostic yield.

The novi+ also integrates seamlessly with ScottCare's feature-rich HolterCare™ diagnostic software, perfectly complementing your other ScottCare ECG diagnostic products.

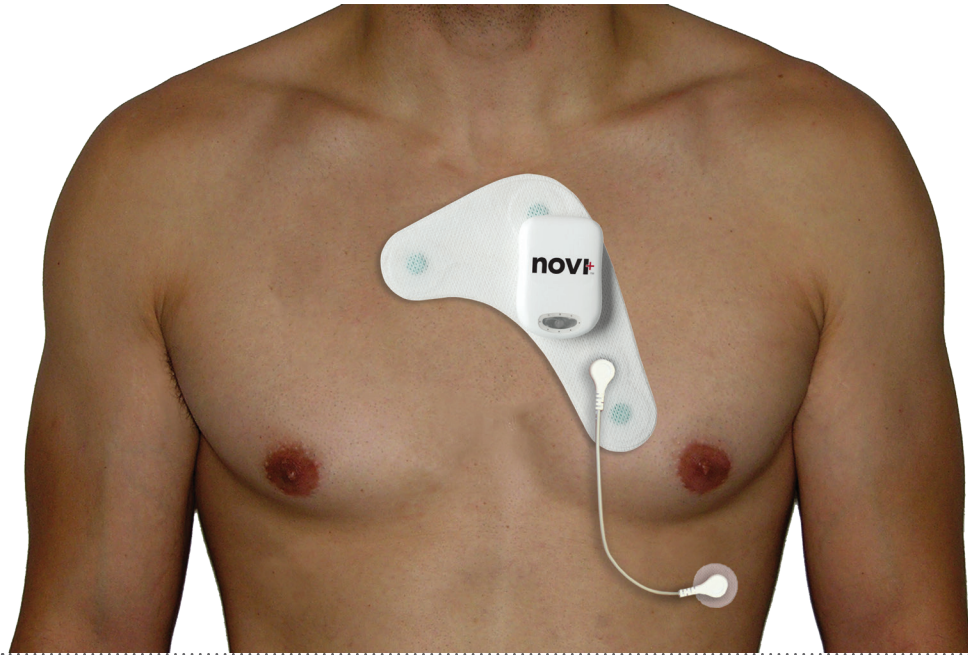

### FEATURES

- Up to 3 channels of ECG
- Lightweight, single patch hook-up is discreet
- Automated recording start and shutoff
- Mark event through sensor double-tap
- Rechargeable built-in battery
- Compatible with HolterCare™
- Optional EHR integration

### BENEFITS

- Provides recording flexibility
- Helps improve patient compliance and satisfaction
- Simplified operation
- Event marking is simplified and user friendly
- No need to purchase batteries
- Expedited ECG analysis reduces workload and streamlines patient care
- Easily provide data to patient's EHR
